

Register for the Portal

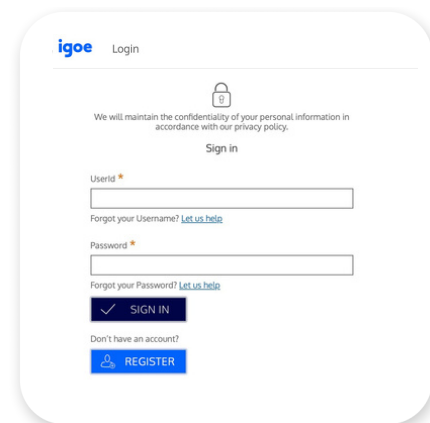

Registering for an account provides access to real-time balances and activity of your Igoe powered benefits. This guide will walk you through the Igoe Participant Portal registration process which requires a One-Time Passcode (OTP) for enhanced security. The passcode will generally be sent to either your work email or mobile number, if provided by your employer at the time of enrollment. As we may not be provided with your mobile number, we recommend registering when you have access to your work email. Follow the below steps for a smooth and secure registration.

Go to www.goigoe.com, select Log In, Select "Spending Account Participants". Select "Register" to start the account setup process.
