Masons of California

Kaiser & NonStop HMO members: Your guide to paying for health care

(Not for Kaiser HSA)

When you get care, use your cards in this order:

STEP 1

Kaiser member ID card

Show this card so your provider can verify your Kaiser coverage.

STEP 2

NonStop card

Use this card to pay eligible deductible expenses with funds provided by Masons: your first **$5,500**, or **$11,000** for a family.

For many team members, the only card they'll need.

STEP 3

Igoe card

Once your deductible is met, use this card to help pay eligible coinsurance expenses for:

- Inpatient hospital stays
- Outpatient surgery
- Emergency room copays
- Diagnostic and complex lab and X-rays

Masons pays first

Your NonStop card covers your deductible. After that, you pay copays for doctor and specialist visits and prescriptions, up to $1,500 a year ($3,000 for a family). Your FSA card can help with eligible costs. If you reach that limit, the plan pays 100% of covered, in-network medical costs for the rest of the year.

GOOD TO KNOW

- **How much is left on my NonStop card?** Check the NonStop Health app.
- **Lost a card?** Call NonStop or Igoe at the numbers below.
- **Forgot to bring your cards?** Ask for a bill, then pay it with the right card.
- **The NonStop card isn't a savings account.** You can't withdraw unused funds or carry them over to next year.
